Large scale and interesting projects.

Work experience

Since
January 2000

Vice President - IT Project manager

Mission: IT project manager for all Equity Benchmark activities.

Organization, planification, reporting, from A to Z (from the index methodology proposals to the final implementation and the production support team setup).
Presentation to and negotiation with upper management.

Business specifications review and validation, in coordination with all Business Units (product management, Index, Research) around the world (US, HK, Mumbai, Budapest, Geneva, London)

Responsible for the production support team, issues follow up, production process enhancements and automation.

Member of the IT technology review board.

In charge of the recruitment in Gva and Budapest.

In charge of the mid year and end of year evaluations.

Means: 10 people in Geneva, 3 in Budapest, mostly Java engineers.

Tasks organisation and synchronization with the Mumbai team (India - 30 people) and Hong-Kong (China - 10 people).

Java based applications, light web and heavy fron ends (GWT, netbeans, .NET)
SOA architecture, soon internal cloud infrastructure.

Appraisal: I've developed a pragmatic and successful approach of the project management. Projects are now delivered on time, within the allocated budget and desired quality (amongst the most important ones : Gimi methodology, Divisors, Backbone calculation and products, strategic and thematic indices, Fixed income, US TMI and China A methodologies, Barra incorporation, Morgan Stanley separation...).

Automatization of all our production cycles (SOA architecture, scheduled production steps).

Growing teams, increase the time to market deliveries, decrease the number of issues and get more clients satisfaction, scale savings, innovative IT solutions, motivated teams, virtuous circle.
